

# GARALI BECHIR

## IT Engineer Student

@ garalibechir10@gmail.com    +216 26 455 505    Ariana, Tunisia  
https://github.com/garali10  
I am a 1st year IT engineering student looking for a summer internship

## EXPERIENCE

### Human Development Training - Summer Intership

#### Tunisie Telecom

JUL 2022 - Aug 2022    Nabeul , Tunisia

- Customer Service : Collaborated with team members and supervisors to ensure smooth operations at the front desk and timely resolution of client issues.
- Demonstrated exceptional communication and interpersonal skills .
- Collaborated with colleagues and supervisors to ensure seamless operations and deliver exceptional service to clients .
- Adapted quickly to new tasks, procedures, and technologies introduced during the internship, demonstrating flexibility and a willingness to learn.

## TECHNICAL SKILLS

Git   SQL/MySQL   Oracle DB   Linux   Unix   C   C++  
HTML/CSS   JavaScript   PHP   Python   JAVA

## SOFT SKILLS

Problem-Solving   Teamwork   Adaptability

## RELEVANT CERTIFICATIONS

Cisco CCNA

## EDUCATION

Engineering degree

Specialized in Web development

2021- today    ESPRIT Ariana

## LANGUAGE

English : Upper-Intermediate

French : Intermediate

Arabic : Native Speaker

## ACADEMIC PROJECTS

### 2D Game Development

#### ESPRIT

jan 2022 - may 2022

- Developed a 2D game using SDL on the Linux. It involved leveraging SDL's features for graphics rendering, audio playback, and user input handling to create an interactive gaming experience
- Arduino controllers were utilized to enhance gameplay: controlling character movement, activating in-game actions, or navigating menus.

SDL   C   Linux   Git  
Arduino Microcontrollers

### Smart Radio: Desktop App

#### ESPRIT

OCT 2022 - dec 2022

- Designed and implemented a comprehensive desktop application for radio management using C++ and the Qt framework

C++   Git   QT Framework  
Arduino Microcontrollers   Oracle DB

### Web Application - Medical Health App

#### ESPRIT

FEB 2023 - MAY 2023

- Designed and implemented a comprehensive web application, "Medical Management," aimed at improving the operational efficiency of medical sites

JavaScript   php   mysql  
CSS/HTML   Git

### Crossplatform application- Assurance

#### ESPRIT

FEB 2024 - now

- Designed and developed a comprehensive insurance and Symfony with PHP for advanced features such as SMS/Posts reaction/mailling.
- Adapted the insurance management application using JavaFX to provide a rich and responsive user interface on desktop platforms
- Extended the insurance management application to provide a seamless user experience on mobile devices, using FlutterFlow for rapid cross-platform development

Symfony   JavaFX   FlutterFlow   MySQL  
Git
